REBOUND PRO CUSHION

High Performance Liquid Rubber Cushion Surfaces

Your Basketball Advantage

The **Rebound Pro Cushion** product technology is an affordable cushioned surface suitable for a wide variety of applications.

Rebound Pro is available to suit various needs and play characteristics with 3 different cushion base depth and densities.

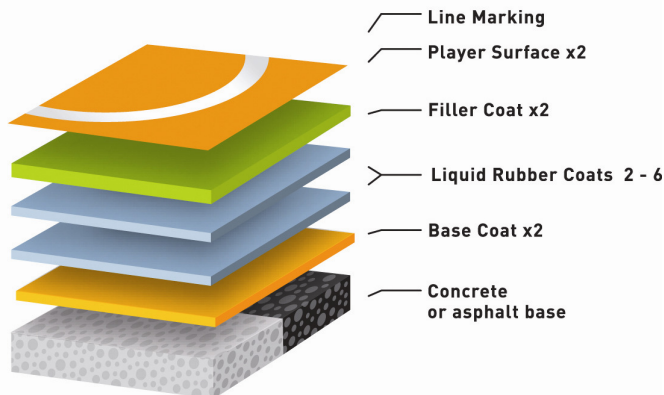

- **Rebound Pro Challenge** 8-9 coat system
- **Rebound Pro International** 10 coat system
- **Rebound Pro Premium** 11 coat system

"...we have recently added to our sporting facilities with the completion of new courts for netball, basketball, volleyball and tennis. The Rebound surface can only be described as excellent and this reflects in the positive feedback we receive from our students.....similar comments from students of visiting Colleges. More importantly to us are the benefits in reducing injuries by having something other than a coat of paint between falling players and a concrete or asphalt surface. When the other issues such as reduced fatigue of muscles, less stress on joints and the lower cost in maintaining the surface are taken into account, it is very clear that cushioned surfaces are definitely the way of the future and worth every cent." St Peters Lutheran College Brisbane

The Benefits

▪ Easy on the body	▪ You'll play longer & more often
▪ Seamless – no glare	▪ Reduces fatigue of muscles
▪ Proven UV colour fastness	▪ Less stress on joints
▪ All weather temperature stable	▪ Slip resistant in the wet
▪ Long lasting – recoatable & repairable	▪ No wear patches in heavy play areas
▪ Low maintenance – no weeds, sand levelling, rolling or re-lining	▪ No heavy play after rain
▪ Choice of 10 non glare UV stable colours and combinations	▪ Years of wear before recoating

25mm on 150mm base of fine crushed rock (Cure new asphalt 14 – 21 days)
Up to five (5) years

Rebound Pro Cushion is a direct result of the years of experience with the highly successful Rebound Ace Grand Slam surface.

Designed for juniors, veterans and social players in basketball to reduce fatigue in the muscles and joints and to play longer and more frequently. **Rebound Pro Cushion** can be installed in a range of thicknesses from approximately 1mm to approximately 4mm. It is a resilient cushioned acrylic surface designed to be *easy on the body*.

Rebound Pro Cushion provides a high performance surface for professional, amateur and social basketball. The resilient cushion provides a sure comfortable feel underfoot, is easier on the body than hard court surfaces, reduces fatigue and you can play for longer and more often.

The cushion topcoat playing surface applied over the resilient **Rebound Pro Cushion** base is a result of 20 years experience of Australian and Overseas exterior exposure in a wide variety of climatic conditions with outstanding success unsurpassed by any other coating. A government report of "testing of Synthetic Sports Surfaces", rated Rebound Ace Sports very highly in all categories and made special reference to the 100% acrylic systems to achieve the best results.
