

REBOUND SYNPAVE *Your Tennis Advantage*

Rebound Synpave is a low maintenance, aesthetically pleasing acrylic hardcourt surface which has a slip resistant texture not diminished by constant use and is suitable over either concrete or asphalt bases.

Rebound Synpave's excellent grip/slip resistant properties are retained even when the surface is wet or after many years of heavy use.

Studies have proven injuries to players are reduced by as high as 65% with reduced fatigue and improved player performance. Rebound Synpave tennis courts provide the benefits of a technically advanced acrylic hardcourt surface without the high cost.

Rebound Synpave has true bounce and ball response qualities and is responsive to all styles of play, and is certified by the International Tennis Federation.

The very high abrasion and wear resistance properties of the Rebound Synpave surface means a longer life before recoating. Rebound Synpave's unrivalled choice of non-glare UV resistant colour combinations can give your tennis court an improved look, be more player friendly, and last longer than any other acrylic hardcourt sports surface in the marketplace. Rebound Synpave is easily cleaned, to maintain an "as new" look.

Known for its properties as a long life hardcourt and proven performer with installations in existence for over 20 years, you can be confident in your investment and confident in the Rebound Ace heritage. Rebound Synpave surface will resurface existing courts and or aged asphalt eliminating often dangerous situations on a court extending the life of the original construction

Tony Roche says, "I have played and coached on just about every surface there is. I regard Rebound Ace surfaces as the best cushioned hard court on the market today. This firm yet perfectly cushioned hard court is a delight to play on in all conditions. Rebound Ace tennis courts provide a quality, comfort and consistency every owner and player will appreciate."
